

Make the Most of Connected TV

With our CTV audiences, you can reach 240MM individuals in the US

CTV advertising is a highly effective way to target consumers at the household level when they are at their most engaged. CTV consumption is on the rise, and the COVID 19 pandemic has only served to speed up this trend. Among US marketers with digital video in their media budgets, 60% are planning to shift ad dollars from linear TV to CTV and OTT this year.*

At Ameribase Digital, we provide marketers with superior coverage for their CTV campaigns, reaching 180MM CTV households and 240MM individuals in the US. Our CTV IDs can be delivered to your choice of platform, in your own language, for quick and easy integration.
